WORK EXPERIENCE

Independent Studying & Improving with a focus on Rails (9/2017 - present)
- I quit my front-end-only job and moved from Dallas to Seattle with the commitment to improve my web development skills and ultimately get a job in the Seattle area as a full-stack Ruby on Rails engineer.
- I have been spending 40+ hours a week coding and studying Ruby on Rails for the past 3 months to sharpen my skills.
- I have also been tutoring a current Code Fellows student going through a JavaScript course.

Vertical Nerve – Software Engineer (8/2016 - 8/2017)
- Built & managed the front-end content & design for over 35 different web applications featuring golf courses.
- Redesigned several pages of previously outsourced WordPress sites according to CRO team recommendations & Photoshop mockups.
- Built the front-end for a physical therapy web site: PT Pros (ptpros.com)
- Stack: Primarily worked with JavaScript, CSS, HTML, and some PHP, Drupal, WordPress

Independent Rails Developer (8/2015 - 8/2016**)**
- After graduating from Dev Bootcamp, built web applications for various clients in the Dallas, Texas area.

SELECTED PROJECTS

Larken Farms (larkenfarms.com)
- Built an e-commerce site with photo gallery for a local farm in the Dallas area.
- Stack: Ruby, Rails, JavaScript, HTML, CSS, Heroku

Estates-to-Date (estates-to-date-rails.herokuapp.com)
- Built an estate sale and auction listing site. Used bcrypt gem and helper methods to differentiate between user types and logged in status.
- Used CarrierWave gem for photo uploads
- Shoppers can view current sales orders by distance form current zip code
- Utilized polymorphic associations in models, enabling shoppers to 'favorite' listings
- Stack: Ruby, Rails, JavaScript, jQuery, HTML, CSS, Heroku

EDUCATION

Dev Bootcamp, San Francisco (Summer 2015)
- Completed an intensive full-stack web development program focusing on algorithmic thinking, object-oriented design, and test-driven development.
- Engaged in weekly group projects and pair programming daily.

Bachelor of Science in Psychology & Chemistry, Florida State University
Graduated with a 3.8 GPA.

TECHNICAL SKILLS

Languages & Frameworks: Ruby, Rails, Sinatra, JavaScript, jQuery, Ajax, Backbone, Angular
Text Editor: Sublime
Databases: Postgres, SQLite
Testing: RSpec
Design: Sketch, Photoshop
